

Emergency Oxygen

Serious and life-threatening medical emergencies often cause oxygen to be depleted in the body leaving the victim at risk for shock. The ASHI *Emergency Oxygen* program focuses on administering emergency oxygen to breathing and non-breathing persons, emergency oxygen delivery systems and integrating pulse oximetry.

Intended audience

Individuals who desire or are required to be trained in the administration of emergency oxygen

Prerequisites

Current CPR or CPR and first aid certification

Class configuration

- Max student to instructor ratio: 12 to 1
- Max student to oxygen system ratio: 6 to 1

ASHI-approved training materials

Instructor materials

- ASHI *Emergency Oxygen* Instructor Guide (one per instructor, print or digital)
- ASHI *Emergency Oxygen* presentation media (DVD, PowerPoint or Blended)

Student materials

- ASHI *Emergency Oxygen* Student Pack (one per participant, print or digital)

Digital Resources

- Streaming video player
- Create custom playlists
- Customizable blended learning playlists
- Pre-built digital Performance Evaluations
- Track past, present and future classes through TC porta
- IMobile app, including offline mode

Successful completion (certification)

- *Written Evaluation*: Required when specified by organizational, local or state regulation. It is recommended for designated responders with a duty or employer expectation to respond in an emergency and provide first aid care.
- *Performance Evaluation*: Students must perform required skills competently without assistance:
 - Oxygen Delivery for a Breathing Person
 - Oxygen Delivery for a Nonbreathing Person
 - Students must demonstrate the use of gloves and a ventilation mask.

Recognized certification period

Up to 2 years

Recommended time to complete

- *Initial Training*: About 1.5 to 2 hours
- Successful completion is based on achievement of the core learning objective instruction time.

Course topics

- The Case for Emergency Oxygen
- Integrating the Use of Emergency Oxygen
- Emergency Oxygen Delivery Systems
- Integrating Pulse Oximetry with Emergency Oxygen
- Oxygen Delivery for a Breathing Person
- Oxygen Delivery for a Nonbreathing Person
- After-use Considerations
- Safety Precautions
