

ASHI Bloodborne Pathogens

American Safety & Health Institute's *Bloodborne Pathogens* program includes information that will help students understand what bloodborne pathogens are and how risks of exposure can be reduced for themselves and others. The program assists in satisfying the training requirements of the U.S. Department of Labor, OSHA Bloodborne Pathogens Standard 29 CFR 1910.1030.

AMERICAN SAFETY & HEALTH INSTITUTE

Intended audience

Any individual or employee who has a reasonable anticipation of contact with blood or other potentially infectious materials as a result of performing designated job duties.

ASHI-approved training materials

Instructor materials

- Bloodborne Pathogens DVD
